2.3 million workers die each year from occupational causes (ILO)
160 million workers get sick each year due to non-fatal occupational diseases

Current projects
Partnering with the Occupational Hygiene Training Association (OHTA) on silica training module

Anticipated project activities
• Short term overseas volunteer projects
• Building capacity and infrastructure
• Opportunities for volunteers to work from home
• Fundraising to help partner organizations in developing countries
• Educating and partnering with other NGOs

What is WHWB?
A not-for-profit organization based in Canada. We are a group of occupational hygienists and other volunteers

Our Vision
A world where workers do not get sick because of their work.

Mission
To engage the occupational health profession in ensuring that workers and employers throughout the world have the knowledge and technical means the prevent work-related disease.
